BRaG brings you into a cute and simple fantasy world. Your character is a coffee bean grower. About your character: You will start this adventure as a rookie coffee bean grower. You will need to grow your beans to sell them to earn money, buy new equipment and upgrade your shop. The more you invest into equipment, the more efficient and faster your machines will operate. After each plant's harvest, you will receive a small amount of money depending on the quality of your coffee beans. You will also purchase and cook coffee beans to roast to increase your café profits. Your coffee beans' price ranges from \$3 to \$12. Your café will be upgraded to meet your preferences. How much money you keep in your pocket will affect how much your café upgrades cost. You can expand your café with additional spaces to grow more coffee beans and sell more bags of them. More bags of coffee beans will mean more profit margins, but it will also increase the time it takes to roast your coffee beans. You can also increase your café's profit margin by selling other, cheaper products like pastries, cereals or even snacks. How to play: The basics of the game are simple, you will start with a small coffee stand on the street. This coffee stand will be a small mobile shop with limited space. You will need to open more shops to get more customers and finally you can open your café in real life. You will slowly upgrade your coffee stand, and once you have enough money, you can upgrade your café to get more space and more efficient equipment. The upgrades are limited to your income. If you decide to upgrade to a bigger location, don't expect a shortcut. You will have to invest more money into equipment, and the amount of money you have will depend on the size of your café. Each individual café will have its own unique look and feel. You can choose from different cafes, each with their own distinct style: Modern, Retro or Industrial. In the game, you have the ability to transform your café completely over different periods of time. For example, you can choose to upgrade to a more modern style coffee shop if you have money to invest and lots of time to spare, or you can choose to go for the Retro style if you want to go retro but don't have the time to invest in all that new equipment and modern themes. Finally, if you have some spare money and time you can invest into Industrial style cafes. The industrial c9d1549cdd

Dota 2 is a team-based multiplayer online battle arena (MOBA) game and is the sequel to Dota 1. Dota 2 is a team-based multiplayer online battle arena (MOBA) game and is the sequel to Dota 1. It is developed and published by Valve Corporation. Players from all over the world play the game to experience heroes rising in glory through missions and to win the ultimate prize, the Aegis of Champions. The game is set in the medieval world of Dota where five (5) common, yet deadly, monsters roam the lands. The monsters are called the Ancient, the Necromancer, the Ogre, the Juggernaut and the Templar. The first time players meet these demons, they are known as The Five (5) Immortals and even though they have not escaped from death, they are ready to go to battle. Each team has a team of five (5) players, for a total of twenty-five (25) fighters, one of them having the special role of the "Champion". It has three (3) lanes, which are represented by a black line along the edge of the battlefield. Gameplay takes place on a 3D battleground, where players are fighting on a team and with players from the opposing team. Players can move freely through the lanes and can access their weapons when they reach the barrier wall. There are also an area of the map known as "River of Blood" (RoB), where heroes run and fight with multiple enemy champions (and sometimes monsters). There are three main game modes. The first one is "Deathmatch", in which the only objective is to dominate over your enemy team. The second one is "Domination" which is kind of like domination in real time strategy games. A team wins the match if it can control more than 50% of a point at the end of the game. Points are awarded for capturing and holding objectives. The third one is "Battlegrounds". In this game, players are required to destroy all the enemy heroes to win the match. Players can buy items to increase attack, defense and magic damage. Game Features: Use your skills and your abilities to fight against the forces of darkness. Hurry, you have no time to lose! The game only lasts for 15 minutes. Use your skills to perform a group attack to destroy towers. Start the fight in "dota 2" Battle, in which, you will be able to kill thousands of creatures.

What's new:

Update Hey everyone! We'll be delaying our next maintenance to remove bugs and test some of the changes we've made this last round of testing to see how they're working. This should take around 12 hours to complete. Changes Added a holiday/festive style special reward to hang-out with the boys(love Stenzen) Added two'skip concept' stars to Athena's Warp-hole Added a new slot to the inventory : filter_empty Added a new filter to the inventory : filter_full Added option to improve the typing speed (heighten Retina or Airdrop icons) - story of coder yesterday Added new menu entry. 3000 Galaxy Credits = 10 diamond Added up-to-date planets and stars on planets - A new galaxy for you all! Adding in superman, light freckles, and the ol' climbing start Added a new planet types to replace the old dog's planet types Added new minerals - 7 extra minerals (6 organic, 1 organic) Added a new sound settings for gas (printer nozzles etc) Added option to skip concept stars - story of coder yesterday Changed planetskin objects to be available from exotic inventory Added new cookies for extra inventory perk - life of Stenzen Added misc randomizations: Cataclysmic Metals, Mojotune Water Added extra battery and recharge time to clothes - thanks to What_the_Dampool Added a new 5th sound settings - a non functioning addition to sound settings Added info on stories page - please re-read if you haven't seen it before Improvements Polling for Adventure and free play now happens auto (previously you'd have to press the 'a' key to get up) Faster processing of disk access Improved stability and game loading Moved some asteroids to be more on the map A new filter for empty inventories (in the inventory) Made icons for un-logged and logged (if you'd like a cheaper unlimited starter pack) Small optimization that enables the resto pistol to be saved since we're now no longer modding inventory (thanks Malcadius) Bugs fixed Out of bounds pixels when downloading are no longer showed for those on Starbase Stenz lying in bed can now

Welcome to Blood of Magic 2! Blood of Magic 2 is the second installment in the Blood of Magic series. It is a sequel to Blood of Magic, a game which reached #1 on the AppStore in several countries. It is the last installment of the series before being replaced by the series New Blood. New Blood will be available for free, while Blood of Magic will be available for a paid purchase. Blood of Magic 2 brings the players to the post-apocalyptic world of Zandia, a world where the machines have surpassed the humans. The player must make alliances with the machines to build a civilization for themselves, but it is not that easy to do so. The machines don't care about the people around them, they use the people as cannon fodder and they rule the machines with an iron fist. Players must fight for power and, through it, be the best in the world. Blood of Magic 2 takes place in a fully open world in which you must overcome the challenges around you and survive on your own. The world is filled with resources, which must be found and processed to craft tools and weapons. All of this must be done through a process of trial and error. Game Features: All-new gameplay, with improved graphics, updated mechanics and new items. New 3D characters with new ways to interact with the game. A variety of new opponents, enemies and characters. Explore an isometric world full of random elements. Thousands of objects to explore and craft. The city of Zandia is fully explorable with a host of new buildings to discover, collect and place around the city. The machines have taken over the world and now control it with an iron fist. There is a strong focus on economy in Blood of Magic 2. The economy is a big factor and players can increase their money simply by completing game tasks. The game also tracks the amount of money collected during a player's playthrough and increases it through the completion of in-game tasks. Once you craft the right equipment, you are able to improve their effectiveness. Lose all of your equipment at once to reset. While travelling from place to place, players can take the items they have acquired throughout their journey with them. Every time a player returns to an area they previously explored, the equipment they carry over from their last trip will increase. Crafting Ingredients Craft
